SIX OUTSTANDING NEW GLADS FOR 1959

(Explanatory Note: Ralph Baerman, formerly associated with Noweta Gardens, and hybridizer of four of the first seven All-America glads, has done his plant breeding at Salem, Oregon, the past four summers in association with Lloyd Weeks' Gladiolus Gardens and John Majeski's Redwood Nurseries. The first six Baerman originations of this new series—all of them outstanding—are being offered the glad world jointly by Weeks and Majeski in the spring of 1959.)

SUNBURST

EIGHTH WONDER

TOPAZ

CHEMAWA

SNOWSTORM

VIOLET QUEEN

SUNBURST (432) (Baerman-Majeski 1959) (Royal Stewart x Pactolus). Early. A tricolor novelty that is so brilliant, so unforgettably different, that it will remain permanently etched upon the memory. Sunburst is a gorgeously ruffled deep salmon of almost 500 size with massive, stretchy flowerheads and a flashy, fiery explosion blotch of velvety scarlet and deep canary yellow so vivid it fairly scintillates. Put this top-notch on your "must have" list and avoid future regrets by placing your order while stock is still available.

Prices: \$2.00 each. One bulb and 10 bulblets \$4.00. No bulblets sold separately. Grower's Unit: 10 bulbs and 50 bulblets \$25.00. Due to very limited stocks, we reserve the right to supply bulbs of sizes No. 1 to No. 4. (Our choice.)

EIGHTH WONDER (470) (Baerman-Majeski 1959) (Emperor x Unknown). Very early. Color soft light purple with a large cream throat. Makes a ribbony spike with extraordinary flat-open, recurved blooms. This is a wonderful early cut-flower variety with fine whip-like bamboo stems. It is the sort of glad which people say: "A single spike makes a bouquet." If cut-flowers mean anything at all to you, especially early cuts, don't pass up this beauty. Eighth Wonder is destined for all-around popularity. Produces better than 75% large bulbs from bulblets. Only blt. grown large bulbs available.

Prices: Same as for Sunburst.

TOPAZ (412) (Baerman-Weeks 1959) (Golden Sunshine x Prospector). Midseason. Although practically identical with Gold in color, it usually has a 50% better bud count (up to 20-22) with long stretchy heads with 8-9 open blooms. This is a supremely beautiful variety. Because of its intense ruffling, Topaz displays such a filigree of highlights that it sparkles like a many-faceted golden jewel. For the up-to-date collector and grower, Topaz is indispensable.

Prices: Same as for Sunburst.

CHEMAWA (484) (Baerman-Weeks 1959) (Innocence x Southern Belle). Midseason. This appears to us to be the most beautiful smoky we have ever seen, surpassing such classics of yesterday as Zuni and sandman, but unlike them being an excellent propagator and germinator with exuberant health. Chemawa has the smoothest color in a smoky, being a soft suede-textured old-rose with a silvery sheen, blending to a clean ivory throat. The softly ruffled blooms, on long stretchy spikes, are totally free from flecking. Chemawa is tops in smokies. Because this is a 1955 seedling we can supply it in more generous quantities than the 1956 seedlings.

Prices: \$1.00 each. One bulb and 10 bulblets \$2.00. Grower's Unit: 10 bulbs and 50 bulblets \$12.00.

SNOWSTORM (400) (Baerman-Majeski 1959) (Innocence x Southern Belle). Midseason. It takes a yellow glow of a lighted window to bring out the whiteness of a snowy landscape, and the touch of amber in the throat of this immaculate glad similarly enhances its exquisite purity. Snowstorm will readily open 8 round, waxy, beautifully ruffled florets of heavy substance and 400 size on spikes nearly five feet tall. We counted 25 buds on its formal spire-like spikes last summer.

Prices: Same as for Sunburst.

VIOLET QUEEN (478) (Baerman-Weeks 1959) (Admiral x Caribbean). Very early. Here is a rugged, healthy addition to the thinly-populated deep violet class, whose cool richness is so important in giving variety to the gladiolus colorama. Violet Queen is almost 500 size and is a splendid spike maker and propagator. If you enjoy the color of the ever-popular Elk's Pride petunia, you will welcome a glad of similar color and of ideal growing habits. Violet Queen is similar to Admiral but much larger and earlier.

Prices: Same as for Sunburst.

Sugar Ell

Grand new 1959 introduction from Ernie Vennard. A cross of Spic & Span and Strawberry Peach. Color a deep self salmon of 432 class. A flower with great beauty opening 5-6 on a tall straight spike. An extremely healthy and vigorous grower, producing good blooms from any size bulb, even bulblets will throw some good blooms. Good propagator and germinator. Midseason to late bloomer.

This variety was entered in the All America test plots in 1956 and again in the '57 trials and missed making All America by a small percentage. Will be a grand exhibition flower and no doubt a coming commercial. Offered this year by only a few selected growers. Get your start now and cash in on this outstanding variety while the stock is limited.

No bulblets sold separately.

All-America Beauties

All America Varieties are tested in every type of soil in North America to produce the most beautiful flowers in your garden.

APPLEBLOSSOM (1956). A lovely snowy white with a faint touch of cream in the throat and an exquisite flush of pink at the edges of the petals. Extremely early and a hardy grower with 8 to 10 open florets on a wiry stem.

CARIBBEAN (1957). A light blue violet of unusual form makes this variety very attractive. Ruffled florets with 9 to 11 open on a straight formal spike.

EMPEROR (1958). This tall royal purple with a light throat is a rich distinctive color of great beauty. Very vigorous and easy to grow.

MAYTIME (1957). A beautiful deep pink with contrasting white blotch and a long ribbony stretchy flower head makes this variety very popular. Early bloomer with 8 to 10 open florets.

JOYOUS (1959). One of the two new 59 introductions. Color is a rich deep rose with elegant ruffled florets. A velvety sheen with 8 or more large florets open on a tall 20-bud spike.

SPARKLER (1959). This new 1959 introduction with a color combination of yellow and red is most attractive. Medium size with heavily ruffled, butterfly type florets. Very striking.

ROYAL STEWART (1956). A he man red with tall straight spikes. Opens up to 10 florets of good substance and a winner of many top awards.

PLEASE READ CAREFULLY BEFORE ORDERING

We here present you with our 34th annual spring price list. We wish to thank our many customers for their fine orders of the past season and assure you of the same HIGH QUALITY stock and courteous treatment on any orders you may send us.

We grow gladiolus exclusively on soil that is the finest than can be had. All stock is grown from small bulbs and bulblets under the very latest type of irrigation. Stored in our spacious warehouse especially constructed with controlled heat and ventilation, which assures you of a product that produces a smile of satisfaction when opening a package of glads from us. A trial order will convince you. Long count and generous extras always given.

TERMS AND SHIPMENT

All prices are cash with order or 50% down and balance C. O. D. at time of shipment. All retail orders are PREPAID to your address with no further charges. Wholesale orders are priced f. o. b. Salem unless you use our POOL CAR service, which prepaies the orders as described in our wholesale listings. Minimum order \$3.00. Shipment will be made at the proper time for spring planting in your particular locality. If you have any special time for delivery, please state so on your order. The Railway Express Agency has established a special commodity rate on bulbs from the Pacific Northwest. This rate is about 20% less than their second class schedule, the rate that usually applies to bulbs.

NON WARRANTY

We give no warranty, expressed or implied, and in no way will be responsible for the results of any planting or forcing of any stock sold. We exercise the greatest care in handling our bulbs and guarantee all stock true to name as required under the FAIR TRADE PRACTICE ACT. But will, under no circumstances, be responsible beyond the purchase price of any stock sold.
